

Illinois

PERCENT OF STATE POPULATION ENROLLED

STATE SPENDING PER CHILD ENROLLED (2017 DOLLARS)

In 1985, the Illinois Prekindergarten Program for At-Risk Children was founded. Beginning in 1998, the program has been funded through the state Early Childhood Block Grant (ECBG), which also supports the Prevention Initiative for children birth to age three. ECBG funding is required to be used to serve children age three or younger in addition to 4-year-olds. The Illinois Preschool for All initiative began in 2006 with the goal of providing preschool education to all 3- and 4-year-olds in Illinois by 2012. The program operates in all counties but budget constraints have prevented the program from serving all children who want to attend. Until July 2017, Illinois did not have a full state budget for two years. However, the ECBG did receive a \$50 million dollar increase for the 2017-2018 school year.

Preschool for All is provided through public schools, private child care, Head Start, family child care homes, faith-based centers, higher education institutions, and regional offices of education. Funding for the program is awarded on a competitive basis. By July 2016, all pre-K teachers were required to meet bilingual education requirements. Preschool for All programs are required to provide instruction in children’s home language if there are 20 or more English Language Learners (ELLs) with the same home language enrolled in a program. Language of instruction is determined locally when there are fewer than 20 ELLs speaking the same home language—however English as a Second Language and other home language supports may be provided.

Children who most need the program are prioritized for enrollment and children must have at least two risk factors to be eligible for Preschool for All. In their funding proposals, agencies and school districts define “at-risk” status. Risk factors include (among others) low income, history of family neglect, violence, or abuse, exposure to drug or alcohol abuse in the family, developmental delays, low parent education, and homelessness or unstable housing. The second level of priority for Preschool for All enrollment is for families with incomes at 400 percent of the federal poverty level. However, in light of limited funding, no programs have funding to serve children at this second priority level.

Illinois received federal Race to the Top and Race to the Top – Early Learning Challenge grants. The state used this funding in part to implement a Quality Recognition and Improvement System (QRIS), ExceleRate Illinois, beginning in 2013-2014. Preschool for All programs are required to participate in ExceleRate Illinois. Funding from these grants was also used to revise the Illinois Early Learning and Development Standards to align them with Common Core State Standards and the Head Start Framework, and implement the Kindergarten Individual Development Survey (KIDS) assessment. In 2014, Illinois was awarded a competitive federal Preschool Development Grant – Expansion Grant for \$20 million. During the 2016-2017 school year, there were 3,934 children served in the state using this funding, including 2,577 new slots and 1,357 enhanced Preschool for All slots.

Illinois will implement the KIDS assessment statewide starting with the 2017-2018 school year. The process to develop this kindergarten assessment began in 2010-2011. KIDS was developed based on the Desired Results Developmental Profile-School Readiness and it has been piloted, field tested, and calibrated.
