

Virginia

PERCENT OF STATE POPULATION ENROLLED

STATE SPENDING PER CHILD ENROLLED (2016 DOLLARS)

The Virginia Preschool Initiative (VPI) began in 1995 in order to serve at-risk 4-year-olds not enrolled in existing preschool programs. The VPI program served 18,356 four-year-old children in the 2015-2016 school year, increasing the number of children enrolled for the fifth consecutive year. Eighty-eight percent of eligible school divisions operate VPI classrooms, and the majority of children participate in public school settings. Funding allocations to local school divisions are based on the number of students eligible for free lunch, but criteria for student eligibility are based on risk factors including, but not limited to: poverty, family unemployment, limited English proficiency, homelessness, parent with limited education, and parent incarceration. VPI programs may provide services on either a part- or school-day schedule throughout the school year.

Lottery revenues continued to account for all state funding for VPI in 2015-2016. In 2011, VPI was evaluated for both program quality and child outcomes by the Curry School of Education at the University of Virginia. Program monitoring by state education staff and consultants was conducted through site visits every two years prior to 2011-2012 to review program facilities, on-site safety procedures, and program record checks. Site visits were eliminated due to budget constraints in 2011-2012. Desk monitoring of local plans and results of child assessments continue as methods to conduct an annual review of program-level outcomes.

Virginia's federal preschool expansion grant program, VPI+, expands services to four-year-olds in high needs communities. The state serves an additional 1,230 students in 11 school divisions within this program. In the 2015-2016 school year, these school divisions were awarded \$16,661,897 to provide 1,280 new VPI+ slots and 1,574 improved state-funded VPI slots.

In the 2015-2016 school year, new eligibility criteria were mandated by the General Assembly to include children living in households with incomes up to 200% of the federal poverty level. Previously, there was no state mandated income requirement for program eligibility. In the 2016-2017 school year, new income requirements will allow 15% of slots to be used for local eligibility criteria.
