

Northern Mariana Islands

NO PROGRAM

The Commonwealth of the Northern Mariana Islands (CNMI) does not provide state-funded pre-K as defined in this report; however, the territory supports early education in several ways. Since 1984, the Head Start program in the CNMI operates under the auspices of the Public School System (PSS). The CNMI Head Start Program operates 10 centers on several islands, which provide morning and afternoon center-based services four days per week, 152 days out of the school year. CNMI served 420 preschool-age children in 2012-2013. Specialized services for children with special needs are also provided for young children.

Programs in CNMI use early learning guidelines for children from birth through 5 years, which are aligned with the Head Start Child Development and Learning Framework. These standards address multiple domains, including physical development and health, social and emotional development, approaches to learning, language development, literacy, mathematics, science, creative arts expression, logic and reasoning, social studies, and English language development.

CNMI uses program quality assessment tools for quality assurance and monitoring. Program assessments are one component of a quality rating and improvement system currently under development.
